

# **KEKU** *inc.*

## **Your lab is involved in wheelchair sports?**

You may...

### **Need to set a benchmark on your actual performance?**

Keku's wheelchair ergometer will give you the ability to evaluate your performance on race simulation, "All out" test, Wingate test or any customized test.

### **Need accurate data to evaluate performance?**

Keku's wheelchair ergometer will give you the ability to evaluate your performance on race simulation, with high accuracy in a controlled environment.

### **Need to implement a special test protocol?**

The user interface was designed to be as simple as possible while giving the user the ability to build his/her own test or training.
